## WELCOME TO YOUR STUDENT HEALTH & DENTAL PLANS

Dear Student,

Welcome to your students' union health and dental plan.

Students here at University of Ottawa Graduate Students' Association have come together to contribute to health and dental plans that provide benefits to us all.

Your health and dental plans have been democratically established by the members of your student union through referenda. Every year, your elected representatives and staff work to negotiate the best value possible. Students who already have coverage are allowed to withdraw from the plan, so that this service can be focused on those who need it.

Your health and dental plans are services of your students' union, underwritten by Green Shield Canada (GSC), the only national non-profit benefits provider in the country, so you can be assured that students' interests are the only priority.

In creating universal health and dental plans, University of Ottawa Graduate Students' Association members have recognized that when we work together, we can save money and provide important services. If any individual student were to seek private and independent health coverage, the cost would be too great and the benefits too limited. However, by pooling our resources, we are able to realize incredible savings and service enhancements through economies of scale.

These benefit plans represent much more! In deciding to offer ourselves health and dental protection, students are working to ensure that no student suffers academically or has to drop out of school because of unexpected and unmanageable health related costs. Some students with chronic illnesses would never be able to see the inside of a classroom without access to affordable treatment and therapies.

That is why it is important to work collectively to provide protection for each other in the most cost-effective way possible. While we hope that this year will be worry free, if your health does falter, we are glad that your health and dental plans will be there to support you. Many of your plan benefits support health promotion and illness prevention, such as annual dental cleaning and maintenance medication. Being proactive about your health and dental needs is as much a worthwhile investment in your future as your education.

This year, please get familiar with the coverage detailed in this brochure and take advantage of the benefits provided by your students' union health and dental plans. After all, we can all benefit from having the peace of mind this coverage brings.

If you have any questions or suggestions, there is a team of people waiting to assist you.

Have a healthy and successful year!

Your University of Ottawa Graduate Students' Association Executive

When more than one surgical procedure, is performed during the same appointment in the same area of the mouth, only the most comprehensive procedure will be eligible for reimbursement, as the fee for each procedure is based on complete, comprehensive treatment, and is deemed part of the multiple services factor;
7. The multiple services factor occurs when a minimum of 6 or more restorations (fillings) or multiple periodontal services are performed at the same appointment and the full fee guide price is charged for each restoration or periodontal service, the first service will be paid in full and all remaining services will be reduced by 20%;
8. Core build-ups are eligible only for the purpose of retention and preservation of a tooth when performed with crown treatment. Necessity must be evident on mounted pre-treatment X-rays. ## DENTAL DISCOUNT NETWORK ARRANGEMENT

In partnership with the National Student Health Network, GSC provides access to the Student Dental Discount Network. The intent of this network is to provide our student plan members access to high quality dental services at an affordable cost.

Features of this great value-added service and how it works:

1. This national program includes more than 800 dental provider locations from coast to coast.
2. Once a dental provider elects to participate in the network, they are added to a list of GSC's participating dental providers. This list is available at [greenshield.ca/student](https://greenshield.ca/student).
3. You may visit a dentist from the list of participating dental providers, or you may ask your existing dentist to join this network; the advantage to your dentist of joining the network is the potential of an increase in business. Your dentist can call our Customer Service Centre at 1.888.711.1119 for more information.
4. The discount offer applies to most dental procedures and *may* be up to 30%.
5. Our system will automatically calculate the applicable discount when you visit a dental provider in this network. The applicable discount is dependent on your particular college or university's plan design, and will be subtracted from your co-pay, or share of the cost.
6. Eligible dental claims must be processed electronically; therefore, **you must first be enrolled on GSC's system in order to be eligible for the discount.** GSC will pay your dentist directly; you only have to pay the dentist your share of the cost (if any) for services provided.
7. You will receive professional dental services while incurring lower out-of-pocket expenses and maintain ongoing oral health.

Visit [greenshield.ca/student](https://greenshield.ca/student) or call the Customer Service Centre at 1.888.711.1119 for more information.

### **Co-ordination of Benefits (COB)**

If you are covered for extended health and dental benefits under more than one plan, your benefits under this plan will be coordinated with the other plan so that you may be reimbursed up to 100% of the eligible expense incurred.

Claims must be submitted to the primary payor first. Any unpaid balances should then be submitted to the secondary plan(s). Use the following guidelines to identify the primary and secondary plans:

#### **GSC Plan Member**

This GSC student plan is always your primary plan. If you are the plan member under two group plans, priority goes in the following order:

- The plan where you are a full-time plan member
- The plan where you are a part-time plan member
- The plan where you are a retiree

#### **Spouse**

If your spouse is a plan member under another benefit plan, this GSC coverage is always secondary. Your spouse must first submit claims to his/her benefit plan.

#### **Children**

When dependent children are covered under both your GSC plan and your spouse's benefit plan, use the following order to determine where to submit the claims:

- The plan of the parent whose birth date (month and day) occurs earliest in the calendar year
- The plan of the parent whose first name begins with the earlier letter of the alphabet, if the parents have the same birth date
- In cases of separation or divorce with multiple benefit plans for the children, the following order applies:
  - The benefit plan of the parent who has custody of the dependent child
  - The plan of the spouse of the parent who has custody of the dependent child
  - The plan of the parent who does not have custody of the dependent child
  - The plan of the spouse of the parent who does not have custody of the dependent child

If the parents have joint custody and both have the children listed as dependents under their plans, claims should first be submitted to the plan of the parent whose birth date (month and day) occurs earliest in the calendar year. Balances can then be submitted to the other parent's plan.

When GSC is identified as a secondary carrier, submit the original Explanation of Benefits statement from the primary carrier and a copy of the claim form in order to receive any balances owing.

#### **Access to Information**

If you live in a province where the law permits you to request copies of your records, GSC will provide one copy of the following at no charge:

- a) any enrollment form you completed for coverage under this plan that was submitted to GSC;
- b) any written statements or other record about your health that you submitted to GSC during the course of applying for coverage under this plan;
- c) one copy of the group contract.

GSC may charge you to provide any additional copies.
